Radio Changing Minds & Hearts

RAN Partnering with OPERAF to develop a rural radio station in the Central African Republic

Helping change lives is a never ending story. What an opportunity to decrease illiteracy, alcoholism and adultery among a group of people living in a rural area of the Central African Republic. God has been at work here. RAN is working with Emmanuel Tshilenga and Daniel Konanyeran from OPERAF to establish a radio station in rural Damara in the Central African Republic. There are no radio broadcasts in this area.

- ❖ The local church leaders, village chief and elders agreed to support the station.
- ❖ A local person has been identified to receive training to run the radio station.
- ❖ Local Christians will build the mast; maybe from a tall tree trunk.
- ❖ The station will use solar power since there is no electricity in the area.
- ❖ Programming will have a Christian ethos and broadcast community development topics.
- ❖ Broadcasts will be in local languages.
- ❖ The surrounding villages will benefit from hearing the local news and the good news of Jesus.

Please pray for this project. They wish to be on air by February 2011. You can help revive and encourage some of God's needy people. If He stirs your heart to help purchase equipment or materials for this station please contact us at the RAN office.
